Standard Operating Procedure (SOP)

1. Introduction:

The Innovators Club is a student-driven institutional body designed to foster innovation, problem-solving, entrepreneurship, and community impact. The club operates through structured systems, leadership continuity, and outcome-based innovation practices.

Vision: To nurture a generation of creators who apply science, technology, and design thinking to build solution that positively impact people, planet, and prosperity.

Mission: To promote hands-on innovation, multidisciplinary collaboration, industry connection, and community-driven impact while building future ready leaders.

2. Objectives of the Club:

Promote innovation-driven learning among students. Encourage interdisciplinary collaboration. Develop leadership and project management skills. Execute at least one flagship innovation project annually. Build partnerships with industry, start-ups, and communities. Ensure sustainability through structured governance and review systems.

3. Governance & Leadership Structure

The club operates through a Three-Tier Leadership Model:

Tier 1 – Core Leadership Team: President, Vice President, Secretary, Treasurer, Domain Leads.

Tier 2 – Functional & Project Leads: Event, Technical, and Outreach Coordinators.

Tier 3 – Members & Volunteers.

This structured system ensures leadership continuity, mentorship development, role clarity, and smooth annual transitions under the guidance of a Faculty Advisor.

4. Strategic Planning & Annual Roadmap:

At the beginning of each academic year, the Core Team shall:

- Define annual goals
- Identify one flagship innovation project
- Prepare a semester-wise activity calendar
- Allocate budget and resources and Establish measurable performance indicators.

5. Structured Operational Model:

The club follows a disciplined monthly cycle:

Week 1: Planning & Review

Week 2: Skill Development / Workshops

Week 3: Project Sprint

Week 4: Progress Review & Documentation

All meetings, projects, events, and financial records must be formally documented and archived.

6. Member Lifecycle & Code of Conduct:

Members undergo structured on boarding, including orientation and domain allocation.

All members must maintain professionalism, respect teamwork, adhere to deadlines, and uphold institutional ethics.

Accountability mechanisms are enforced through review by the Core Team and Faculty Advisor when necessary.

7. Innovation & Project Execution Model:

The club adopts a "One Project – One Impact" approach annually, focusing on solving a real-world problem through:

Problem Discovery, Research & Ideation, Prototype Development, Testing & Iteration, Implementation / Showcase, Impact Documentation.

Each project must maintain timelines, milestone tracking, resource allocation records, risk assessment, and measurable impact evaluation.

8. Events, Workshops & External Engagement:

The club organizes workshops, hackathons, boot camps, and industry interaction sessions.

Each activity requires:

- Pre-event planning checklist
- Budget approval
- Documentation
- Post-event reflection report
- Collaborations with industries, start-ups, NGOs, alumni, and CSR partners must align with institutional objectives and follow transparent approval processes.
